

## T10.org URL changes

You have reached this document using an obsolete URL. Starting in January 2009, working draft URLs on www.t10.org have changed as follows:

### Web Access

Old URL:

<http://www.t10.org/ftp/t10/drafts/dir/filename.pdf>

New URL:

<http://www.t10.org/cgi-bin/ac.pl?t=f&f=filename.pdf>

Please note that access to working drafts for approved, published standards are now restricted to T10 members only.

For the current list of T10 working drafts and for information about obtaining published standards, please use this URL:

<http://www.t10.org/drafts.htm>

### FTP Access

Working drafts are no longer accessible using anonymous ftp. If you are a member of T10, you can access working drafts using the t10member ftp account. The password for this account changes periodically. To have the current T10member account password sent to you by email, use the web form at:

<http://www.t10.org/members/pswdhelp.htm>
